Summary

As a frontend developer and IT professional, I possess a strong passion for creating seamless user experiences and leveraging technology to solve complex problems. With 6 years of experience in the field, I have developed a diverse skill set that enables me to thrive in dynamic and challenging environments.

My expertise lies in designing and implementing responsive and intuitive user interfaces using modern web technologies such as HTML5, CSS3, and JavaScript. I am well-versed in frontend frameworks like React and Angular, and proficient in using various UI libraries and tools to enhance efficiency and maintainability.

In addition to my technical proficiency, I excel in collaborating with cross-functional teams, including designers, backend developers, and project managers, to deliver high-quality solutions. I am adept at translating business requirements into technical specifications and ensuring timely project delivery while maintaining a strong attention to detail.

Experience

University of Nigeria ICT Center | Enugu, Enugu

Front End Developer | 04/2018 - Present

1. Web Development: Developing user interfaces for websites and web applications using HTML, CSS, and JavaScript.
2. Responsive Design: Ensuring that the websites and applications you create are responsive and work well across different devices and screen sizes.
3. User Experience (UX): Collaborating with designers to create intuitive and user-friendly interfaces that provide a positive user experience.
4. Cross-Browser Compatibility: Testing and ensuring that your code works correctly on various web browsers, such as Chrome, Firefox, Safari, and Internet Explorer.
5. Performance Optimization: Optimizing the performance of websites by writing efficient code, minimizing file sizes, and optimizing loading times.
6. Code Maintenance: Writing clean, modular, and maintainable code that can be easily understood and updated by other developers in the future.
7. Version Control: Using version control systems like Git to manage and track changes to your codebase, enabling collaboration with other developers.
8. Collaboration: Working closely with designers, backend developers, and other team members to ensure seamless integration of frontend and backend components.
9. Testing and Debugging: Conducting thorough testing of your code, identifying and fixing any bugs or issues that may arise.
10. Continuous Learning: Keeping up-to-date with the latest frontend technologies, tools, and best practices to continuously improve your skills and stay current in the industry.

Uniqplatform Limited | Lagos, Lagos

Remote Junior UI Developer | 12/2018 - 05/2023

- Created custom websites by harnessing HTML, CSS and JavaScript skills.
- Improved website navigation with clear and intuitive UX mapping
- Designed web pages to enhance branding and navigation.
- Delivered front- and back-end development across mobile and web applications.
- Developed and tested REST APIs.
- Enhanced front-end performance through image optimisation and clean coding practices, accelerating load times.
- Facilitated code reviews and pair programming to produce clean, high-quality code
- Optimised HTML email templates to improve click-through and conversion rates.
- Collaborated with other developers to identify and alleviate software bugs.
- Improved code quality through automated testing, reviewing and validation.
- Checked software for errors and coded updates to fix problems.
-

Ministry of finance akwaibom | Akwaibom, akwaibom

IT Support Specialist | 08/2016 - 08/2018

- Assist users in resolving technical issues they encounter, whether in person, over the phone, or via email. This may involve diagnosing problems, providing step-by-step instructions, or remotely accessing their systems to troubleshoot and fix issues.
- I was responsible of Installing, configuring, and maintaining computer hardware and software. This includes setting up new devices, installing operating systems and software applications, and ensuring that all systems are up to date with the latest patches and security updates.

NUDAKOL System LTD | Lagos, GU

IT Support Technician | 02/2015 - 11/2016

- Conducted effective IT support service training for 50 employees, leading to improved operational efficiency.
- Performed Planned Preventative Maintenance, repairs and technical upgrades for well-mobilised operational teams.
- Provided timely and professional support across hardware and software issues for 20+ end users. Harnessed new technology to reduce error rates.
- Employed speedy diagnosis techniques across software issues, achieving outstanding First Time Resolution rates.
- Developed solutions for critical software issues, guiding customers through bug fixes and reactive maintenance.
- Actioned client feedback to improve goods and services provided.
- Designed engaging brochures, banners and signs for printing.
- Created corporate branding, designing cohesive looks from logos to letterheads.
- Developed engaging marketing and promotional materials to generate revenue and grow client bases.
